

Product Change Notification

Confidential

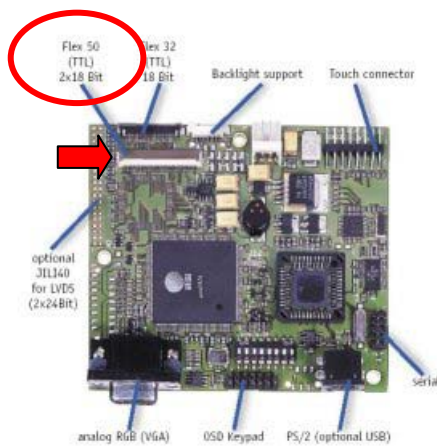

From: Kontron Hamburg GmbH&Co.KG
To: All Distributors and Customers
PCN: #3_CRTtoLCD-1-LC and CRTtoLCD-1-TC
Date: 18-Feb-05
Originator: Daniel Piper

Related Products: CRTtoLCD-1-LC/TC
Change of: Layout
Changed from: Versions with 2 x 18 Bit TTL support **to:** Versions **without** 2 x 18 Bit TTL support

Reason for the Change:

- Older flat panels types with 2 x 18 Bit TTL-Interface have nearly disappeared from the market and their technology has moved to LVDS. So due to the low demand Kontron Hamburg has decided to remove the FLEX50 Connector (X2) from the CRTtoLCD-1-LC and-TC boards for cost- and space saving reasons.

Description of Change:

Removal of FLEX50-Connector (X2). No other effects than the described change expected

Expected Effects on Compatibility:

100% hardware compatible for all product listed below

Availability and affected part numbers:

| Part Number | Sample available | Series Delivery |
|--|------------------------|---|
| 21070 / 21071/ 21072 / 21073 / 21074 / 21075 / 21076 / 21077 / 21079 | Date will be announced | Hardware revision 1.03 and ID-Number starting with "F" |

Important notice:

Kontron Hamburg GmbH&Co.KG is not obligated to perform changes on older versions of customer products free for charge. Please contact your local sales representative for further information regarding this matter.
